ABOUT ME

Recent Computer science Graduate. I consider myself a responsible and orderly person. I am looking forward to my first work experience. seeking an opportunity to leverage my skills in web development and contribute to dynamic projects. Eager to apply my knowledge of Python, MySQL and Machine Learning in a collaborative and innovative environment.

PROJECT

Hotel Recommendation System

- Developed a web application for hotel recommendations, table booking, and food ordering to enhance the travel experience of users.
- Utilised basic Machine Learning techniques for sentiment analysis on hotel reviews, aiding users in decision-making.
- Worked on full stack project, utilising Python and MySQL for front-end and back-end development.
- Implemented critical features, including admin functionalities, hotel registration, and user profiles.
- Successfully integrated sentiment analysis to provide insights into hotel reviews.

CERIFICATES

- Introduction to IOT

  Bishop Hebar College
